419-Unit Senior Affordable Housing Complex to Rise in Santa Ana

The project would abut the Costa Mesa Freeway.

Later today, Santa Ana's City Planning Commission will review AMG & Associates' proposal to construct a large senior housing complex on a **3.17-acre site at 2222 E. 1st Street** (<http://www.ci.santa-ana.ca.us/pba/planning/AMGFirstStreetApartments.asp>).

The proposed six-story complex would create a total of 419 units of income-restricted housing, served by a 213-car parking structure with 20,000 square feet of open space. The development site is currently occupied by a small motel, which would be demolished for the project.

AMG has tapped **Architects Orange** (<https://urbanize.la/tags/architects-orange>) to designed the project, which would abut the Costa Mesa Freeway. Renderings show a contemporary, with elevation plans indicating a facade of stucco, tile and fiber cement boards.
